

# Moplen HP561R

Polypropylene Homopolymer Resin for Spunbond Fiber

*Moplen* HP561R is a polypropylene homopolymer resin which offers high flow for spunbond fiber applications.

*Moplen* HP561R has been designed to meet the requirements for spunbond fiber applications. HP561R offers good flowability with very narrow molecular weight distribution and very good gas fading resistance.

## KEY FEATURES

### Excellent processability

- Good drawability
- Very uniform melt flow rate
- Wide processing window
- Suitable for high speed spin continuity of low denier fiber

### End-use benefits

- High melt flow with very narrow MWD resin
- Spinnability improved with enhanced fabric properties

## PROPERTIES

- Low gel
- Very good gas fading resistance

## TYPICAL APPLICATIONS

- Spunbonded nonwoven fabric used for hygiene products, medical, agriculture, geotextiles, etc.
