

Moplen HP562T

High Flow Homo Polypropylene for Spunbond Applications

Moplen HP562T is a high flow polypropylene resin which offers an excellent processability for spunbond applications.

Moplen HP562T has been designed to meet the stringent requirements for spunbond applications. HP562T offers an excellent flowability with narrow molecular weight distribution and very good gas fading resistance.

KEY FEATURES

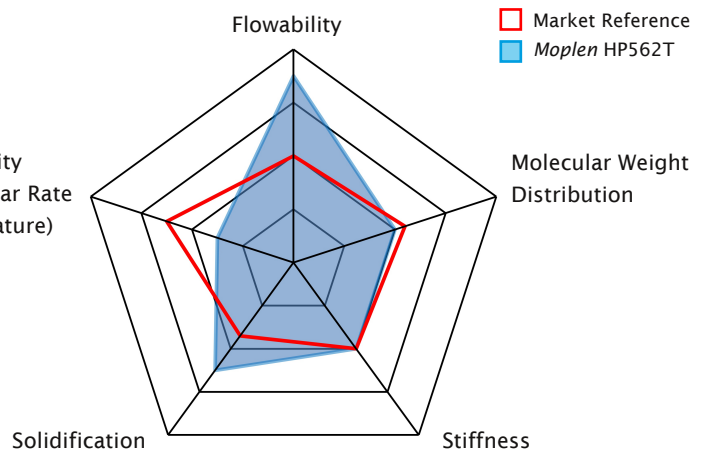

Excellent processability

- High MFR allowing easy processing
- High flowability for extrusion
- Good drawability
- Low rate of waste

End-use benefits

- Spinnability improved with very narrow MWD resin
- Uniform nonwoven properties
- Excellent fiber characteristics

Resin Viscosity
(at Same Shear Rate
and Temperature)

PROPERTIES

- Low gels
- Very good gas fading resistance
- Excellent processability

TYPICAL APPLICATIONS

- Spunbonded nonwoven fabric
- Hygiene products
